

# TRANZCAPTURE SOLUTIONS

## One Platform. All Channels. Maximum Efficiency

Catalyst's TranzCapture® platform delivers a single, centralized solution for capturing check images and processing deposit transactions across all critical channels, branch, teller, ATM/ITM, mobile, business and more, with robust reporting, reconciliation, fraud prevention and error correction built-in.

Catalyst owns TranzCapture, the industry leading deposit capture solution, leveraging our expertise to solve your key challenges.

- Scalable for credit unions of every size – from under \$1 million to over \$10 billion in assets
- End-to-end service, from item capture to back-office processing, with dedicated support
- Trusted by nearly 60% of credit unions for check processing
- Built exclusively for credit unions, with enhancements guided by user feedback
- Extended services available to manage all your payment needs

TranzCapture is the largest credit union deposit capture solution, serving nearly 1,700 credit unions.

- Scalable SaaS platform that grows with your credit union
- Single sign-on for seamless access and enhanced security
- Real-time fraud and duplicate detection for added protection
- Strategic partnerships with FinTechs and core providers to expand your capabilities

Cohesive single-source solution ties TranzCapture software with deposit processing.

- Presentment, correction and settlement provided by Catalyst
- Simplified deposit processes save time and reduce costs
- Sophisticated reporting delivers comprehensive details on every check captured

Catalyst supports all your needs, providing one enterprise-wide settlement, reconciliation, archive and reporting system with easy single sign-on access.

- Mobile Capture
- Teller Capture
- ATM/ITM/Kiosk Capture
- Business Capture
- Branch Capture
